Yusuf Nawaf Albana

Full-Stack Developer

I am a student with a strong interest in information technology, particularly in web and application development. To build a solid foundation for my future career as a Web and App Developer, I chose the path of Software Engineering to deepen my technical knowledge and broaden my programming skills.

Experience

Survival Program

- Demonstrated high adaptability, teamwork, and problem-solving skills by managing daily necessities and earning travel funds independently within a rigorous 7-day field program.

IDN Teaching

- SMP PAWYATAN DAHA 2 : HTML & CSS
- PKBM Cahaya Sunnah Bogor : Fundamental Website

Survival On Lombok

- Just like before, the difference is we were placed further away for only a week, making the return cost more expensive, we had to collect 500K just to get home, on top of our daily expenses.

August 17th Parents' Competition Committee

- registering guests who come to the event
- lead the chess tournament
- make sure the event runs according to plan

Project

Salahuddin Library | MERN Stack

- Developed a full-stack library management system featuring user registration, book cataloging, and an automated loaning system.

BlogMous | Laravel

- Create a website to upload blogs, similar to X/Twitter, using Laravel. It can do CRUD, chat, likes, comments, etc., similar to Twitter.

PayRoll Payment | Laravel

- create a CRUD system to make it easier for supervisors/admins to pay their staff salary, or to submit requests for events/permissions

Kelurahan Beurawe, Kecamatan Kuta Alam, Kota Banda Aceh, Aceh, Indonesia
